LATE MODEL PERFORMANCE MIDNIGHT MADNESS GRAND CHAMPION RUNOFF

The Late Model Performance Midnight Madness Grand Champion Runoff will take place on Friday, September 9, 2022. All 2021 winners in Pro Street, Super Street, Diesel Shootout and Motorcycle will qualify for the Grand Champion Runoff. The winner of the Grand Champion Run-Off for cars will receive \$1,000 plus a Championship Jacket, and a Gold Card allowing them to race Midnight Madness for free in 2022. The winner of the Grand Champion Run-Off for motorcycles will receive \$500 from Bracket Bike Racing Matters, a Championship Jacket, and a Gold Card allowing them to race Midnight Madness for free in 2022. Each class, Pro Street, Super Street, and Diesel Shootout in the Grand Champion Run-Off will be eliminated separately until we get down to a winner in each class. Then the class winners will Run-Off together to determine the Midnight Madness Grand Champion. Drivers are only allowed one spot in the Runoff regardless of wins in multiple classes. Drivers with only one win must race the class they won in the Run-Off. Once any driver has won two Grand Championships, they can no longer compete in the Runoff and are restricted to racing a fully registered vehicle if they wish to continue racing in the Midnight Madness series. The motorcycle Grand Champion Run-Off will be run together as their own class. The Grand Champion Run-Off will start at 8pm, being round robin from the start, during time trials of the regular race, and will be completed before eliminations of the regular Friday night Midnight Madness race. Racers that are in the Grand Champion Run-Off will then be able to run eliminations of the regular race. The class winners from the regular Friday Night Midnight Madness event on Friday, September 9, 2022, will go into the 2023 Grand Champion Run-Off.
